Project Title: Newtro Website

I'd like to build this site with multiple pages, some of which would be categorized together in the navigation as examples of this trend, and others that would stand alone in the navigation. I think this topic, as it encompasses a trend, would lend itself well to a unique and purposeful design.

- **Home Page and Introduction** - What is the trend? Could include a few small examples (separate from the ones detailed later)?
- **Popularization and History** - How did the trend begin? How did it get popular? Who does it appeal to?
- **Architecture and Design** - Example of Trend 1 (include Streets section from Wikipedia)
- **Fashion** - Example of Trend 2
- **Consumable Goods** - Example of Trend 3 (General Economics, Food and Drink, and Media sections of Wikipedia)
- **Sources** - for images and text. Here is the wikipedia page I'd begin with: https://en.wikipedia.org/wiki/Newtro_culture.
